Adult Craft: Fluid Painting

Supplies

- · 3 paint colors
- 5 cups (these are 3 ounce cups)
- Floetrol (POUR GENTLY, it moves quick. YOU DON'T NEED MUCH—I will help if you don't have a steady hand)
- 1 canvas
- · Gloves or an apron if you want

Directions

- 1. Write your name on the back of the canvas
- 2. Push up your sleeves, and remove any dangling scarves that might drag in paint
- 3. Choose 3 paint colors, and white or black
- 4. Mix each color in a 1:1 ration with the floetrol—DO NOT FILL THE CUP more than 1/4 the way full
- 5. Use a stick to mix, and pour gently, and mix well
- 6. MAX 3 OUNCES WHEN ALL PAINT AND FLOETROL ARE COMBINED
- 7. Pour each of your colors a little at a time in layers starting in the center of the cup
- 8. DO NOT STIR THIS CUP, let the colors pool around each other. This is where your design comes from.
- 9. When your cup is full, let it sit flat on the table
- 10. Place your canvas front side down over the top of the cup
- 11. Flip the cup and the canvas over and set the canvas down, propped up by your other paint cups at the corners
- 12. Leave the cup there a moment to let the paint settle, tap the bottom of the cup gently
- 13. SLOWLY remove the cup STRAIGHT UP
- 14. Let the paint flow as it will
- 15. As the paint slows its pooling, tilt to spread the paint around to cover the remainder of the canvas
- 16. Try to avoid touching the paint with your fingers to prevent smudging
- 17. Carry to the drying table and leave propped up on cups to drip dry overnight.
- 18. Come back in a day or so to pick up the dry painting.
